Handmade, aeromodelling, fishing, guitar, programming, hackathons, computer games, new technologies

PROFESSIONAL EXPERIENCE

SL8.online – Engineering Lead, Architect

February 2024 — December 2024

A secure social platform with crypto monetization. As Tech Lead and Architect, I created a unified **React Native** codebase supporting both mobile (**Expo**) and web (**Next.js**) applications and managed a team of engineers using **Agile** processes.

Tech stack: React Native, Next.js, Expo, **TypeScript**, **AWS**, **Vercel**, **GitHub**

Sats.co – Engineering Lead, CTO

January 2023 — December 2023

Neo-bank mobile application for the African market. I've been delivering product features, and managing a team of engineers.

Tech stack: TypeScript, React Native, **Node.js**, **PostgreSQL**, **AWS**, **GitLab**

GoonsOfBalatroon.com – Web Team Lead

June 2022 — October 2022

Digital card game in the metaverse with its own crypto token and NFTs. I was a product owner for the public website. I've managed a team of front-end and back-end web developers.

Tech stack: TypeScript, **React**, Node.js, **Blockchain**, **NFT**, **Ethereum**

MyMoneyKarma.com – Technical Lead, Product Manager

December 2020 — May 2022

FinTech startup for the Indian market. I managed and mentored several teams of developers. I was a product owner for a **B2C** SaaS product.

Tech stack: TypeScript, React, Next.js, Node.js, **MySQL**, **Bitbucket**, **Scrum**

riwers.io – Product Manager, Technical Architect

June 2017 — June 2019

Riwers is a custom software development company. I was managing products and technical solutions for our clients through Agile processes.

Tech stack: JavaScript, TypeScript, React, **Vue**, Angular, Serverless, **AWS**, NodeJS, **NestJS**, **MongoDB**, **MySQL**, **PostgreSQL**

Business Incubator "Happy Farm" – CTO, Mentor, Consultant

October 2012 — July 2016

Technical audit and assistance for more than 50 start-ups and IT teams.

AQUATRA – CTO, Tech Lead

April 2006 — Jan 2012

Software distribution company. Microsoft certified partner. We were producers for a bunch of B2C and B2B software products.

ABF software, Inc. – CTO, Product Manager

February 2000 — March 2006

Product company. Microsoft and Borland partner. We brought to the market 10+ end-user products and 100+ components for developers.

EDUCATION

National Technical University of Ukraine – "Kyiv Polytechnic Institute"

1994 — 2000

Faculty of Aero-Space Systems. BS of Metrology. Master of Electronics.

Many **professional courses** and **certification programs**.
